

Five in 5

28.01.21

Problem of the day

Here are six digit cards.

Use all six cards to make three multiples of 3.

1. $? = 8 \times 6$

2. $1300 + 400$

3. $144 \div 8$

4. $3 \times 2 \times 9$

5. $? - 7284 = 1013$
